

SUN•Chlorella cream®

ADVANCED MOISTURIZING SKIN CREAM 20% CHLORELLA GROWTH FACTOR

Sun Chlorella Cream® is an advanced, nourishing skin cream that is naturally rich (20%) in Chlorella Growth Factor (CGF). It nourishes the surface of your skin, hydrating, to keep your skin moisturized longer. Sun Chlorella Cream® combines CGF with other natural ingredients like cloves and grapefruit seed extract, along with free-radical fighting antioxidants. It is also formulated without parabens, propylene glycol, or artificial preservatives.

Every day, your skin is under assault from exposure to the sun, wind, and pollution. By your mid-twenties, your skin's natural ability to regenerate begins to slow down, and as time passes the stresses of life can take their toll on your skin. A busy schedule can lead to poor nutrition and lack of sleep, draining your immune system and further damaging your skin. It's not enough to take care of the surface of your skin. To protect your skin and keep it looking fresh and vibrant, you need to take care of your whole body, from the inside out.

After consistent use of Sun Chlorella Cream®, skin appears firmer and lines are smoothed away.
