

"Sun Chlorella Cream® is amazing and holds the secret to well hydrated and healthy skin that glows! This cream is ultra-moisturizing; a small amount really goes a long way.

My favorite thing about the cream is how once applied to the skin; it makes it instantly appear dewy and alive. This luxurious cream is my daily go-to, and I genuinely love it. Excellent quality and such a great self-care investment. I highly recommend it."

—Natasha Kaur

*"When I use Sun Chlorella Cream®, my husband usually comments on how beautiful my skin looks. This cream really lives up to **Advanced Moisturizing** and glowing skin. It feels light on my skin, I love it!"*

—M. C.

Natural Beauty, The Japanese Way

Chlorella has long been one of the most popular superfood supplements in Japan. Sun Chlorella Cream® is a nourishing facial moisturizer containing one of the most valuable components found in chlorella, Chlorella Growth Factor (CGF). The nucleic acids from CGF help support healthy-looking radiant skin. Formulated in Japan by some of the world's foremost experts in chlorella makes Sun Chlorella Cream® the very best in natural skin care.

Does Your Skin Eat Right?

Every day, your skin is under assault from exposure to the sun, wind, and pollution. By your mid-twenties, your skin's natural ability to regenerate begins to slow down. A busy schedule can lead to poor nutrition and lack of sleep, draining your immune system and further damaging your skin. It's not enough to take care of the surface of your skin. To protect your skin and keep it looking fresh and vibrant, you need to take care of your whole body, from the inside out.

Together, Sun Chlorella® and Sun Chlorella Cream® serve as an essential part of a complete regimen for skin and whole body nutrition.

Sun Chlorella® is a dietary supplement that can help your body's overall health with essential

amino acids, minerals, vitamins, chlorophyll, and beta carotene.

Sun Chlorella Cream® nourishes the delicate surface of your skin, and it's so light that you can wear it to bed or apply it in the morning as you start your day. Used in combination as part of your daily beauty routine, Sun Chlorella® and Sun Chlorella Cream® can give you, smooth, healthy-looking skin that glows naturally.

Chlorella Growth Factor

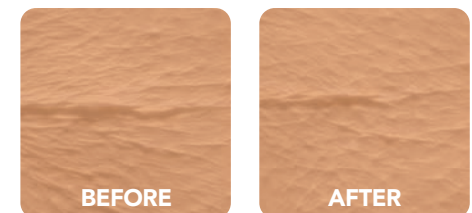

Both Sun Chlorella® and Sun Chlorella Cream® contain Chlorella Growth Factor (CGF), a source of highly beneficial nucleic acids. CGF supports cellular health of the cells and tissues in your body, and it even has the power to rejuvenate. CGF provides more of these nucleic acids than any other superfood!

Feed Your Skin Superfoods!

Sun Chlorella Cream® is the only moisturizer to contain 20% CGF and contains other natural ingredients like cloves and grapefruit seed extract, along with free-radical fighting antioxidants. It is also formulated without parabens, propylene glycol, or artificial preservatives.

After consistent use of Sun Chlorella Cream®, skin appears firmer and fine lines are less visible.
