

SUN·CHLORELLA® powder

Chlorella is a fresh-water green algae that provides many naturally occurring vitamins (like D and Active B₁₂), minerals, and more chlorophyll than most plants or foods. Aside from supporting your overall health, chlorella helps support the body's immune system, natural detoxification process, and more*. Our high-quality manufacturing process—cell wall pulverization by DYNO®-Mill—ensures one of the most digestible chlorella on the market.
