

Not all chlorella brands are considered equal. Here's why: In order for your body to absorb the nutrients inside chlorella, we've got to get through its tough cell wall. To do this, other brands use methods that may actually destroy much of the cell's nutritional value.

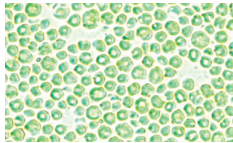

Sun Chlorella® uses DYNO®-Mill technology, which is a method that thoroughly pulverizes the cell wall while preserving the integrity of the nutrients inside.

Thanks to our DYNO®-Mill cell wall pulverization process, Sun Chlorella® is one of the most digestible chlorella brands on the market.

Sun Chlorella® Is More Digestible Than Any Other Brand!

Sun Chlorella®:
90% pulverized cell wall using DYNO®-Mill

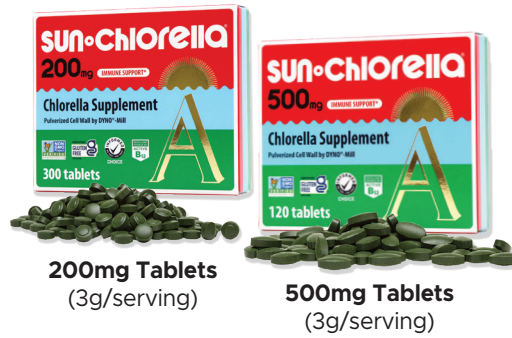

Other brands claiming broken or cracked cell wall offer minimal digestibility

Chlorella with a “broken cell wall” has been shown to contain only a small percentage of “broken” cells, which means your body may have a difficult time utilizing the powerful nutrients chlorella has to offer. With Sun Chlorella®, the cell walls have been pulverized; therefore, your body has instant access to its amazing nutrition. Feel the Sun Chlorella® difference!

Sun Chlorella® Tablets

Choose from our classic 200mg easy-to-swallow tablets or 500mg larger sized tablets that give you the same serving of chlorella in fewer tablets.

200mg Tablets
(3g/serving)

500mg Tablets
(3g/serving)

Chlorella Supplement

Pulverized Cell Wall by DYNO®-Mill

Revitalize Your Body With Sun Chlorella®, Nature's Perfect Superfood®

What Is Sun Chlorella®?

Sun Chlorella® is a single-celled, freshwater green algae that brims over with naturally occurring chlorophyll, vitamins, minerals, nucleic acids, and so much more!

Chlorella is one of the best-selling health supplements in Japan, where its extraordinary benefits have long been studied. Scientific studies document chlorella's unique ability to help:

support your body's immune system*

support healthy digestion*

support your body's natural purification process*

boost your energy level*

maintain levels of blood pressure and cholesterol already in the healthy range*

support athletic performance*

What Makes Chlorella The Greatest Superfood

Chlorella is an absolute treasure trove of health-supporting nutrients.

Chlorophyll

Chlorella has more chlorophyll than most other plant food. One serving of Sun Chlorella® contains the same amount of chlorophyll as about 2-2.5 cups of spinach or kale!

Chlorella Growth Factor (CGF)

Only in chlorella will you find this dynamic combination of nucleic acids. Acclaimed for its benefits, CGF also supports your immune system and may help your body's cellular repair process.*

Active Vitamin B12

Chlorella also contains active, plant-based B12, which your body can use. Active B12 is typically only found in animal products such as meat, chicken, eggs, and dairy products, which is why Sun Chlorella® is an ideal supplement for those who follow a vegan or vegetarian diet.

Vitamin D

One serving of Sun Chlorella® meets your daily value of vitamin D. Sun Chlorella® provides you with a natural source of vitamin D so you may benefit from its immunity support.*

Iron

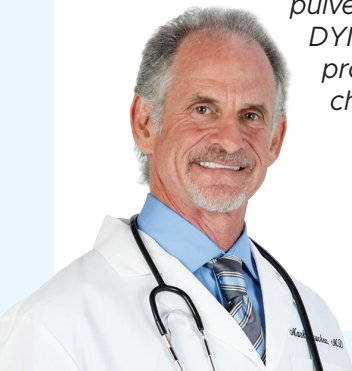

Sun Chlorella® is a good source of iron—the mineral responsible for producing red blood cells and for keeping you in good health.*

Sun Chlorella® To Help Build Natural Defenses

"I highly recommend that you try Sun Chlorella® and take it every day. It gives you what you're probably missing from your diet and other supplements. Sun Chlorella®, pulverized cell wall by DYNO®-Mill, is the best product available among chlorella brands."

MARK DRUCKER, M.D.

Retired, Co-Founder and Medical Director, The Center for Advanced Medicine in Encinitas, CA; health author; and pioneer in the field of health and wellness, and natural medicine for over 30 years.

Chlorella's Unique Power To Purify And Revitalize

Chlorella Growth Factor (CGF) is a unique complex found inside chlorella's nucleus. It is the engine that drives chlorella's constant reproduction, providing nucleic acids, supporting metabolic processes at the cellular level, and restoring energy.*

Chlorella's cell wall has protected it for millions of years, allowing chlorella to flourish as one of the oldest forms of life on earth. Numerous studies show that chlorella supports your body's normal cleansing process as it moves through your digestive system.*

Why Millions Of People Take Chlorella Every Day

What you put into your body is the fuel that helps your system run. Among the countless benefits that people find in taking chlorella, more energy is high on the list. When you take Sun Chlorella®, you nourish and gently purify the body; this helps to combat fatigue, leaving your body feeling a sense of renewal and allowing you to function optimally in your day-to-day activities. Discover a natural plethora of energy!*
