

WHY SUN CHLORELLA POWDER?

Not all chlorella brands are created equal. Here's why: In order for your body to absorb the nutrients inside chlorella, you have to break through its tough outer cell wall. To do this, other brands use methods that may actually destroy much of the cell's nutritional value.

Sun Chlorella® uses DYNO®-Mill technology, which is a method that thoroughly pulverizes the cell wall while preserving the integrity of the nutrients inside.

Thanks to our DYNO®-Mill cell wall pulverization process, Sun Chlorella® is one of the most digestible chlorella brands on the market.

The only chlorella brand in the world that is NSF Certified For Sport® and Informed Sport Certified!

NSF Certified for Sport® and Informed-Sport Certified ensure supplements are free from banned substances through rigorous testing and evaluation. Sun Chlorella Powder offers athletes a clean, safe product to support their training and recovery.

PLANT POWERED NUTRITION FOR ATHLETES

Sun Chlorella Powder

Sun Chlorella® Powder can be easily incorporated into any drink or recipe. Available in a box of 10 or 30 individual daily serving packets.

Chlorella Supplement

WHAT IS CHLORELLA?

Chlorella is a fresh-water green algae that provides many naturally occurring vitamins (like D and Active B₁₂), minerals, and more chlorophyll than most other plant or food. Aside from supporting your overall health, chlorella helps support the body's immune system, natural detoxification process, muscle recovery after exercise, endurance and more.* Our high-quality manufacturing process—cell wall pulverization by DYN^o-Mill—ensures one of the most digestible chlorella on the market.

THE SUN CHLORELLA DIFFERENCE

Sun Chlorella's pulverized cell wall by DYN^o-Mill

Optimal digestibility

Chlorella claiming "broken" cell wall

Minimal digestibility

Untreated chlorella

Least digestibility

REAL SUPERFOOD POWER IS NOW WITHIN YOUR REACH!

What makes Sun Chlorella Powder unique is its Chlorella Growth Factor (CGF), a nucleotide-peptide complex that helps support cellular repair and rejuvenation.* Incorporate Sun Chlorella Powder into your sports program according to the serving size recommendations for great health and you will begin to feel the difference. Taking chlorella may require time to assimilate (3-5 weeks) and is designed to support the body at every level.

WHY ATHLETES TAKE SUN CHLORELLA POWDER

CHLOROPHYLL

Chlorella helps the body's natural detoxification process. It can help to keep your body running at its peak performance and maintain your overall well-being.*

CHLORELLA GROWTH FACTOR (CGF)

Chlorella Growth Factor (CGF) helps the body's natural cellular repair process. It helps regenerate cells and muscle tissue, reducing recovery time post workout.*

ACTIVE VITAMIN B₁₂

Active Vitamin B₁₂ helps boost your energy level to help your body to perform optimally.*

VITAMIN D

One serving of Sun Chlorella[®] meets your daily value of vitamin D, which supports immune function and muscle health.*

IRON

Iron is responsible for producing red blood cells and for keeping you in good health by carrying oxygen to your muscles.*

PEAK ATHLETIC PERFORMANCE

In a small double-blind, placebo pilot study, a daily intake of 6 grams of chlorella were used to measure peak oxygen uptake in 10 young individuals (mean age of 21.3 years) over a 4-week period. This study suggests that chlorella may help increase athletic performance measured by peak oxygen uptake (VO₂ peak).¹
